Side-Event hosted by ISEA Foundation

Foundation of International Servant leadership Exchange Association
February 16, 2021 (New York time)

Financial Support of COVID-19 Items and Identity Protection with Blockchain technology for Universal Digital Access

Presenter : HRH Henry Sejong Keonho KIM

The foundation aims to present directions for poverty eradication and well-being, as well as transparent identity management and financial support. The content of income sharing through blockchain finance, which is an essential technology necessary for this, will be discussed at this meeting. We believe that the platform that we are presenting will help realize Survival Human Rights policies and transparent financial technology.
